Herron School of Art

History
The Herron School of Art boasts a rich tradition. The roots of the school were planted in 1877, when it was established as the first school in Indiana dedicated to the teaching of art on a professional level. After several years of intermittent instruction, the school resumed on a permanent basis in 1902. The Herron School of Art has completed over 100 years of uninterrupted education in art. Through the years, the school has become a nationally recognized institution.

In 1967 the Herron School of Art became a school of Indiana University. Two years later, with the creation of Indiana University-Purdue University Indianapolis (IUPUI), Herron became part of this innovative approach to higher education. Herron celebrated 100 years of arts education in 2002-03. As a professional art school within a university, Herron offers students a full range of university resources. Yet Herron retains the comfortable, efficient size and friendly spirit of an independent college of art.

Mission
The primary mission of the Herron School of Art is to provide quality education for students committed to careers in the visual arts, including ceramics, painting, photography, printmaking, sculpture, visual communication, furniture design, art education, and art history. Herron also offers courses to provide visual literacy and an understanding of the visual arts for students who are not majoring in art and for other interested members of the community. The school’s size, numerous programs, and location in downtown Indianapolis create multiple opportunities for students to grow in their own disciplines. For more information about Herron School of Art, visit our World Wide Web page at www.herron.iupui.edu.

Degrees
The Herron School of Art educates students seeking professional careers in the fine arts, visual communication, art history, and art education. Degrees currently offered are the Bachelor of Fine Arts (B.F.A.), the Bachelor of Arts (B.A.) in art history, the Bachelor of Art Education (B.A.E.), and the Master of Art Education (M.A.E.).

Accreditation
The Herron School of Art is an accredited institutional member of the National Association of Schools of Art and Design (NASAD) since 1952. Herron is also accredited as a school of Indiana University by the North Central Association of Colleges and Schools and by the Teacher Training Licensing Commission of the Indiana State Board of Education.

Faculty
The Herron School of Art faculty is made up of artists, designers, art historians, art educators, and scholars engaged in the integrated activities of teaching and research. Faculty in the school believe a high level of professional activity not only enhances teaching but also provides students with models upon which to pattern their own careers. The faculty is consistently recognized with awards, commissions, exhibitions, and publications both regionally and nationally. The expertise of the Herron faculty is further extended by a program of visiting artists and lecturers from the Indianapolis community and throughout the nation.

Resources

Herron Gallery
The Herron Gallery is a nonprofit visual art gallery that provides the community, local high school students, and IUPUI students, faculty, and staff with firsthand exposure to contemporary works of art created by regional, national, and international artists.

The gallery is committed to a program of seven exhibits each year that explore all areas of visual artistic expression. The gallery holds annual student and senior exhibitions, and facilitates an ongoing series of faculty exhibitions within its 1,800 square feet.

Each year’s exhibit schedule is coordinated with the school’s lecture series to provide a broader understanding of the works presented at any given time. In addition, workshops are conducted by visiting/exhibiting artists to give students the opportunity to work directly with recognized professionals.

The gallery is intended as an educational resource for students as well as the community. Each exhibit is accompanied by an announcement and a public opening. A mailing list exists for anyone interested in receiving gallery information. Informal talks are available, and group visits are encouraged.

The gallery is staffed by a full time director/curator and hourly student employees placed through the university’s work-study program. The gallery is open to the public and hours that vary. All shows are free and open to the public. Interested persons may visit the gallery, located in the Museum Building at Herron School of Art. Call for current gallery hours and an exhibition schedule at (317) 920-2420.

Indianapolis Museums and Galleries
The Indianapolis Museum of Art, the seventh largest art museum in the country, is housed in a spectacular facility on the former Eli Lilly estate at Oldfields. This fine museum features a notable permanent collection and a lively program of changing exhibitions. The Indiana State Museum, The Eiteljorg Museum and The Children’s Museum are moments from Herron.

Visiting Artist Lecture Series
The Visiting Artist Lecture Series informs and enlightens students, faculty and the community about the world of contemporary art. Artists, critics, and historians from all over the world are invited to speak at Herron, lecturing on their art, writings, or creative research. Visiting artists also work with students in the classroom, present workshops, or collaborate on community projects. The Lecture Series is a vital resource not only for Herron’s students, but also for anyone in Indianapolis interested in contemporary art.

Admission
Admission to the Herron School of Art is based on the student’s previous school record and may also require a visual portfolio. All Herron applicants must first qualify for admission to IUPUI through their academic profile. Students may be admitted to Herron based upon outstanding academic achievements. Other students who qualify for admission to IUPUI may be admitted to Herron through a visual portfolio.

Students enrolled at other schools or divisions of IUPUI or IU may apply for Herron admission the semester prior to beginning Herron courses. To transfer, they must have at least 12 credits that apply toward a Herron degree and a 2.30 cumulative grade point average. Students must file an application for current students for priority admission by October 1 for spring admission and March 1 for summer or fall admission. Please contact the Student Services Office for more information.

All students are admitted into Herron as pre–art or pre–art education majors. To be admitted to a major, a student must go through the portfolio review process, which occurs after students complete the freshman Foundation Program courses and 9 credit hours of sophomore-level studio work. Students interested in art history may be directly admitted into that program and do not have to go through the portfolio review process.

Admission with Transfer Credit
Students with transfer credits from other colleges or universities may be considered for the Herron School of Art. Transfer students may receive credit for successfully completing academic courses (grade of C or higher) of equivalent content from other regionally accredited institutions. Transfer credit for studio art courses, however, is granted only from institutions with National Association of Schools of Art and Design (NASAD) accreditation. Credits for studio art courses from institutions not accredited by NASAD may be eligible for evaluation toward a Herron degree by individual degree programs. Transfer students ready to register for 300-level studio courses must submit a portfolio for review. Students who are eligible for advancement will be notified by the Student Services Office after admission to the university. Review dates and guidelines will be determined by the individual degree programs.
Readmission of Former Students

Former students in good standing who withdraw in accordance with the regulations of the school and who desire to return within two years should notify the Herron Student Services Office. Students who have been gone for two or more calendar years must follow the current bulletin requirements and meet all departmental curriculum requirements offered at the time of their return. All BFA students who interrupt their major course of study for more than five calendar years are required to pass a portfolio review prior to enrollment in 300 or 400 level studio courses. For Visual Communication students, no major course completed more than five years previously will be accepted toward the Visual Communication graduation requirements.

Academic Sequencing

The studies at the Herron School of Art are sequential, in that a student moves through definite programs of prescribed and optional studies on a year-to-year basis until all the requirements for a particular degree are fulfilled. Students who fall behind in fulfilling degree requirements at a particular year's level will be expected to fulfill those requirements in sequence, either in conjunction with or in place of courses offered at the next level. Conflicts in scheduling may occur when students try to make up requirements, and they may find that their enrollment must be extended beyond the original graduation date.

Herron Expenses

A Herron student will spend approximately $1,100 on books and supplies during a school year. IUPUI maintains an art supply shop and bookstore at Herron. Modest lab fees are charged for materials used in certain studio classes. These fees are subject to change. Please request current information.

Review for Advancement

In order for students to be admitted into degree programs at Herron School of Art, they are required to pass a portfolio review for advancement. (This requirement does not apply to art history majors.)

To be admitted to the degree programs, students must pass the portfolio review; therefore, completion of portfolio review requirements does not guarantee admission into the degree program. The decision of the faculty review is final.

For students interested in a fine arts degree, the portfolio review typically occurs during the sophomore year after the student completes all of the foundation requirements, including two semesters of art history and one semester each of English composition and English literature, and 9 credit hours of 200-level studio courses. The student must also have a 2.5 cumulative studio grade point average and a 2.0 overall cumulative grade point average. A student may not take any 300-level or higher studio classes until advancement has been approved.

Students interested in art education must complete their foundation year to go through the review process. They must also have a 2.5 cumulative grade point average. They will not be able to advance in art education until they pass the review and Pre-Professional Skills Test (PPST), and are accepted into the IUPUI School of Education.

Transfer students ready to register for 300-level courses must submit a portfolio for review. Students who are eligible for advancement will be notified by the Student Services Office. Review dates and guidelines will be determined by the individual degree programs.

Dean's List

Degree-seeking students in good standing who have a grade point average of 3.33 or higher with a load of 12 or more credit hours for a given semester will be placed on the Dean’s List for that semester. Students carrying fewer than 12 credit hours and a grade of Incomplete in one or more classes will not be placed on the Dean’s List until the Incomplete is removed from the semester record. Students carrying 12 credit hours and taking a course as Pass/Fail will not qualify for the Dean’s List.

Academic Probation

Students in the Herron School of Art are expected to maintain a cumulative grade point average (GPA) of at least a 2.00. If they do not, the dean will give them formal written notice of probation. Students will be placed on academic probation for the academic session following one in which they fail to attain the 2.00 cumulative grade point average. They will also be placed on academic checklist, which will prohibit them from registering for future semesters until they meet with a student services representative.

Academic Forgiveness

The Herron School of Art forgiveness policy applies to former IUPUI students pursuing a first undergraduate degree who have been away from IUPUI and have not attended any other college or university, including any campus of ILL at for at least three years. Only students who meet the three-year requirement and have a grade point average not greater than 2.0 will be considered for the forgiveness policy. If the student's petition is approved, all previously taken courses will remain on the permanent record but will not count toward the student's grade point average (GPA). Only course credits with grades of A through C-, P and S will count toward degree completion but again will not count toward the student's GPA. If a student's petition for forgiveness is approved, the student enters Herron with a recalculated cumulative grade point average of 0.00, after which all the rules of academic probation and dismissal for the Herron School of Art will apply. After approval, the student must complete a minimum of 32 credit hours at IUPUI. All eligible students will be admitted under the Herron School of Art curriculum in place at the time of admittance. If the petition is approved, the Herron Student Affairs committee has the authority to impose stipulations or conditions upon the enrollment of the student. Herron School of Art reserves the right to deny the acceptance of credits from obsolete courses when the student has been away from Herron for three or more years. Forgiveness may be invoked only once.

Pass-Fail Option

The Pass-Fail option is available to Herron undergraduate students in good standing for a maximum of 12 credit hours of academic elective
study within the total degree requirement. This option may not be used for studio courses or the required freshman English courses, and it is limited to two courses per year, including summer instruction. Under the Pass-Fail option, a grade of P (Pass) will not be used in computing the grade point average, but an F grade will be so used. A grade of P will not be subsequently changed to an A, B, C, or D.

Students electing to take the Pass-Fail option in an elective course must complete the required form in the Student Services Office before the deadline published each semester in the IUPUI Schedule of Classes.

**Graduation**
Students expecting to complete a course of study leading to the degree of Bachelor of Fine Arts, Bachelor of Art Education, Bachelor of Arts, or Master of Art Education must be in good standing and file an application with the Herron Student Services Office by October 15 during the academic year in which they wish to graduate. After they file this application, their records will be reviewed, and they will be notified of graduation status by the end of the fall semester.

**General Requirements for a Baccalaureate Degree**
1. Complete the minimum credit hours as required by degree program.
2. Achieve a minimum overall grade point average of 2.0.
3. Achieve a minimum Herron studio grade point average of 2.0.
4. Be in residence at Herron for at least two semesters, and complete, while at Herron, at least 24 credit hours of studio work at the 300 level or higher.

**Requirements for a Second Degree**
Holders of bachelor's degrees who have additional academic objectives may, if admitted by the Herron School of Art, pursue a second bachelor's degree. The student must earn a minimum of 24 additional credit hours in residence and meet the requirements of the Herron School of Art and of the program in which they are enrolled.

**Herron Scholarships**

**Entering Student Portfolio Scholarships**
Students who are applying to Herron for the first time are eligible for scholarships based on a portfolio review. General scholarship money is available to all entering portfolio applicants. The Helen Mowrey scholarship gives priority to Marion County students graduating from Lawrence or Warren Township's high schools. The deadline for all scholarship applications is the April 1 before enrollment.

**Portfolio Criteria** Members of the Herron faculty admissions committee will review portfolios based on the following criteria: Application of principles of two- and/or three-dimensional work, creativity and imagination, ability in drawing (preferably drawing from life as opposed to copying from photographs or other art work), and ability in the use of color, materials, and technique. Applicants must submit a portfolio of 10 to 15 pieces of original art works. Size, media, and technique are left to the discretion of the applicant.

**Continuing Student Scholarships**
Herron students are the only competitors for many scholarships donated directly to the school. The number of these scholarships varies, they may be for either full or partial expenses, and they are awarded on the recommendation of the Herron School of Art faculty. In addition to the scholarships mentioned above, cash awards are given annually for outstanding achievement.

**Student Services**

**Student Activities**
Student activities vary from year to year but have in the past included parties, dances, field trips, programs by visiting artists, and films. The exhibitions and openings receptions of the Herron Gallery are well attended by students and involve considerable student participation. Herron students may also avail themselves of student-sponsored activities and facilities at other schools of the university.

The IUPUI Student Assembly represents the Herron student body at the university level. Herron also maintains a Student Senate of its own.

**Alumni Association**
Membership in the Herron Alumni Association is open to all former students who have completed one full semester in good standing. Graduates and former students are urged to keep the alumni office informed of their latest activities and addresses. Each graduate of the Herron School of Art receives a one-year membership in the Herron Alumni Association as a gift of the association.

**Career Counseling and Placement**
Careers in art are almost as varied as the artists themselves. Graduates of the Herron School of Art can be found in professional positions throughout the United States and in various parts of the world. Many Herron graduates in the fine arts go on to graduate schools to continue their art preparation. Many, however, also go directly into art professions, some working full time producing their art, others working as artists and illustrators for private and public agencies, in museums, in galleries, and in many other settings.

Graduates of the Visual Communication Program have many career options open to them, including design positions in business, industry, and academic settings, as well as with advertising agencies and design studios. Art education graduates from Herron have certification to teach in the public schools in Indiana. Many also teach in private settings or work with museums or public agencies concerned with art and recreational media. Some graduates in art education go on to earn master's degrees and become permanently certified. For a list of 60 different career options in art, contact the Herron Student Services Office.

Information about employment in specific careers is available from placement offices, admissions offices, and department coordinators.

IUPUI, in cooperation with the Herron School of Art, works on the local and national levels to assist students and alumni in career placement. Counseling coordinators provide recommendations and maintain a schedule of on-campus recruiting dates by corporate and governmental representatives.

Herron School of Art has a World Wide Web page for all students and graduates who are seeking jobs. It is updated weekly and lists part-time, full-time, and freelance jobs for all fine arts majors. The jobs line page is located in the student services section of the Herron Web page at www.herron.iupui.edu/student_services.

**International Travel**
The experience and wisdom gained through travel abroad is vital to a student's artistic growth. Students emerge from their adventures abroad with an expanded knowledge of art, a deeper appreciation for another person's culture and way of life, and a different perspective on how they view art. Herron has long recognized the value of such experiences and offers summer programs to China, France, England, the Netherlands, and Belgium. The school plans to expand on these offerings as resources become available and as new relationships develop with other schools around the world. Scholarship opportunities are available through Herron on a competitive basis. Please see the international travel contact at Herron for details on each program.

**School Requirements: First-Year Foundation Program**
The Foundation Program serves as a base for future work at Herron. The Foundation Program student develops drawing skills, powers of observation, an understanding of visual principles, and a working knowledge of materials and techniques, while becoming more knowledgeable about art history. The program is constructed so that students, through self-examination and faculty counseling, will be able to select intelligently the area in which they will major. The Foundation Program has been designed to provide a comprehensive base for the foundation of the program and the basic preparation that it provides.

The Foundation Program or its equivalent in previously earned credit (as determined by the Admissions Committee) is a prerequisite for work in the fine art and education degree programs.

### Furniture Design

Herron School of Art has established a tradition of providing a rich and stimulating environment for aspiring studio art furniture makers. The Furniture Design Program curriculum provides students the framework for their development as designers and makers. The furniture design program's commitment to excellence is reflected in the high standards of professionalism achieved by its graduates.

Courses are taught by experienced and accomplished faculty. Students have the use of a well-equipped and maintained woodworking shop/studio. Introductory courses stress the importance of drawing, conceptualizing skills, design research and development, construction techniques and technologies, model making, art furniture history, and the completion of full-size furniture prototypes.

Intermediate and advanced courses challenge students to continue to develop their technical skills and begin to forge a personal design aesthetic. Career goals and strategies are explored and developed.

Classes are augmented with visiting artists, field trips, student/professional design competitions and shows, and other pertinent professional activities.

### General Fine Arts

The General Fine Arts Program allows students to participate in a wide range of studies without the need to specify a major. Through careful counseling, individual goals and directions are established, and the student is assisted in setting up a well-coordinated program of fine art studies. The flexibility of this program enables the student to combine studies in painting, drawing, printmaking, sculpture, ceramics, woodworking, design, etc., to achieve objectives in keeping with specific goals. Opportunities following graduation are essentially the same as for students identifying with a single program.

## Painting

The Painting Program features balanced instruction and a diverse faculty presenting a wide range of viewpoints. This well-rounded educational preparation provides students with the opportunity to acquire the knowledge and ability essential to creative activity. Emphasis is placed on the development of critical thinking skills, refinement of intellectual processes, and exposure to traditional and contemporary aspects of the painter's craft.

Students earning below a grade of B in either HER P303 or HER P304 must pass a portfolio review by the painting faculty prior to enrolling in HER P401 or P402.

## Photography

Both black and white and color photography are integral to the department’s approach to visual literacy. Emphasis is placed on the student's personal growth and aesthetic development, technical facility in mechanical areas, and a thorough understanding of photography's place in history and its different forms and applications. Primarily through the production of artworks, as well as through lectures, demonstrations, and readings, students become acquainted with the position of photography in contemporary art. Fine art photographers who work in a wide variety of genres are studied.

Herron's photo facilities include multiple black and white labs, individual color darkrooms, special problem processing areas, a computer lab, a shooting studio, and a gallery. Faculty members who are dedicated to their own professional development and set high standards for the department teach the curriculum.

Techniques covered in the program include basic and advanced black and white printing, Type-C color printing, Ilfochrome color printing, non-silver alternative processes, and developing control. In addition, mixed media, installation, time-based electronic media, digital imaging, video, use of the view camera, and studio lighting are taught. The department also provides students with access to professional equipment, including medium format and 4x5 view cameras, light kits, light meters, tripods, Polaroid equipment, and video cameras.

## Printmaking

The printmaking curriculum provides a broad and intensive experience for printmaking majors and studio elective opportunities for other fine art, visual communication, and art education students. Course work in lithography and etching is offered at beginning, intermediate, and advanced levels every semester. Processes covered include plate and stone lithography and the intaglio processes of etching, engraving, and aquatint. Additional courses include printing in monotype, woodcut, and silkscreen. Spacious, well-equipped, accessible facilities for the study of these traditional approaches to printmaking are augmented by additional facilities for the investigation of digital and photomechanical processes.

Basic courses establish a solid, comprehensive foundation of traditional technical skills unique to the printed image, while instruction emphasizes the development of drawing, self-expression, and concept. At the intermediate and advanced levels, students continue to acquire new technical skills. There is extensive work in color, as the emphasis shifts to imagery, concept, and critical thinking.

Advanced students are given considerable autonomy, working largely in self-defined directions in consultation with faculty while focusing on printing technologies most appropriate for individual
development. Group critiques, field trips, portfolio projects, student exhibition opportunities, and workshops and lectures by visiting artists complement the studio experience by providing critical discussion, participation, incentives, and role models.

**Sculpture**

Herron’s sculpture program encourages consistent growth, from the introductory three-dimensional experience through the fourth and final year of advanced work. The multimedia fabrication and foundry facilities provide a level of sophisticated technical experience unique to the undergraduate level.

As sophomores, sculpture students are introduced to a wide spectrum of techniques and processes, which include metal fabrication, casting, woodcarving, construction, resins, plastics, and stone carving, as well as work in nontraditional materials. Through a team-teaching approach, students are exposed to a broad base of practical information, critical analysis, and creative discourse.

As juniors and seniors, students continue investigations and creative pursuits begun in their sophomore year. Juniors and seniors work more independently as they sharpen their individual focus and prepare for graduate school or professional work. Graduates of the sculpture program have had the opportunity to investigate all three-dimensional media and are prepared to continue independent development.

**Visual Communication**

Visual Communication is the principle objective and outcome of graphic design, a profession that brings meaningful visual form to all types of messages. Graphic design is a problem-solving discipline that utilizes creative, analytical and technological skills. When solving communication problems, graphic designers express ideas through appropriate combinations of words, images, symbols, sounds, or motion graphics. The experiences that graphic designers mediate are shaped through the design of books, magazines, brochures, posters, exhibits, displays, kiosks, signs, logos, packages, advertisements, commercials, Web sites, or film title sequences.

In professional practice, graphic designers often collaborate with clients, business strategists and planners, research professionals like sociologists or anthropologists, experience modelers, writers, photographers, illustrators, and others who work together to develop and convey powerful messages that shape the behavior of their audiences. The Department of Visual Communication at Herron emphasizes the synthesis of skills and processes that are essential for solving these kinds of communication problems. Students in the program develop critical and creative thinking skills and problem-solving methodologies that are applied through the creation of visual solutions using traditional, interactive, experiential and emerging data. Emphasis is placed on the analysis of essential communication challenges that evaluate and respond to the needs of an audience.

Beginning students are introduced to the fundamental elements of visual communication through scenarios that provide exposure to a balance of theoretical and technical concerns. Advanced students investigate visual communication problems with an approach that focuses on initial research and planning through final design, production, and assessment phases. Studio experiences model challenging real-work
communication assignments. Attention is also given to the development of such professional skills as working as a member of a team, presenting one’s ideas effectively, and responding to constructive feedback.

As members of both the IUPUI community and a professional art school, Herron Visual Communication students explore the possibilities and opportunities for a career as a design professional within an environment that supports a full range of the visual arts and liberal arts and sciences. The educational experience is structured to expose students to the variety of subjects, influences, and ideas necessary for the success in a field that requires both highly specialized skills and the ability to make connections within a broad range of general knowledge.

Students proceeding to the 300-and 400-level Visual Communication courses must maintain a Herron studio grade point average of 3.0 in their major studio courses and an overall grade point average of 2.0. Students falling below these requirements will be notified, placed on probation, and required to submit a portfolio for review. Students on probation failing to submit a portfolio will be denied advancement to higher-level Visual Communication courses.

**Capstone Experience**

As a requirement for graduation, students in all programs must successfully complete a senior seminar class or an approved equivalent course or project that includes an advanced writing experience. Please refer to J400 and J410 under "Art Degree Senior Capstones and Research Courses" in "Course Descriptions."

As a requirement for the B.F.A. degree, students may be required to display a body of work in a one-person or small group show, a portfolio, or other approved exhibit option. Students may also be required by their departments to submit up to five slides of their work, which will become the property of the school.

### Art Education Programs

Students wishing to become certified to teach in public schools may pursue either a Bachelor of Art Education or certification within the Master of Art Education at Herron. The Art Education Program of the Herron School of Art is offered in conjunction with the School of Education, and the Indiana Professional Standards Board. These bodies have established certain academic requirements for earning a degree and/or licensure in art education in all grades (K-12) in Indiana.

#### The Bachelor of Art Education Degree

The Bachelor of Art Education (B.A.E.) Program leads to certification (teaching license) in art education in all grades (K-12) in the state of Indiana. The program features a commitment to practical experience integrated with a strong studio program. Throughout the program, students increase skill and knowledge in the content of art education today, including art history, criticism, aesthetics, studio, and teaching methodology. Students gain experience by teaching school-age students in a variety of programs and settings including Art Talks (surrounding elementary and secondary schools), Visiting Artist: Art to School (Herron Gallery), Saturday School (Herron campus), Indianapolis Museum of Art, Eiteljorg Museum of the American Indian and Western Art, and student teaching. In addition, students observe and participate in art programs and events around the city.

Electives in one degree may be met by fulfilling requirements in the other degree; advisors can counsel on the most efficient path, for completion of the program. The double major takes five and one half years to complete including summer school.

The Master of Art Education Degree
The Master of Art Education Program (M.A.E.)
strengthens and revitalizes student artistic and
professional experience. The underlying philosophy
of the program is a strong belief in the artist-teacher.

Course work for this degree is divided equally
between art content (studio,history, criticism,
aesthetics) and professional methodology. Students
wanting to enter the graduate program at the Herron
School of Art must apply online to the Graduate
School of IUPUI and submit hard copy of the
application and a portfolio to the Herron School of

The Master of Art Education plus Certification

The B.A.E. is required of all graduate students not
certified to teach K-12 in the Indiana Public Schools
before the M.A.E. degree is awarded. Students
accepted to the M.A.E. program on the basis of a
portfolio of work and an undergraduate major in art
with 50 credit hours, but without a certificate to teach
K-12 in Indiana public schools, must complete
academic requirements of the Indiana Professional
Standards Board for an all-grade visual art major
before they can be granted the M.A.E. degree. The
professional education component consists of 40
credit hours including student teaching.

Requirements will vary based on the individual
student’s undergraduate credit. M.A.E. candidates
must maintain a 3.0 grade point average.

*Most Professional Art Education courses are offered in the summer

Art History Program

The Bachelor of Arts major in art history gives the undergraduate student an opportunity to study the visual culture of humankind from prehistoric times to the art of today and to understand the significant role played by visual communication in world societies. Art historians develop skills in visual analysis, criticism, research, and writing that enrich life experiences and can lead to a variety of rewarding professional careers.

Unlike the studio B.F.A. degrees at Herron, the art history major parallels a liberal arts program leading to the B.A. degree. Art history majors take 36 credit hours of surveys and seminars in their major field covering at least three of the following areas: ancient, medieval, Renaissance and Baroque, American, world art, modern and contemporary art, and art theory. Majors must take at least 6 credit hours of studio art as well as a variety of core requirement courses in the humanities and sciences, including at least one foreign language. Specific requirements for the art history major are outlined later in this section.

The minor in art history enables students majoring in other areas to expand their knowledge of art history and gain valuable career-building experience. An art history minor takes 15 hours of art history credits from a variety of historical periods.

Art history can lead to a variety of careers, including teaching in secondary or higher education; positions within museums, including curatorial functions, research, and administration; and consultative functions in art or corporate environments. Students may also be employed as art historians writing on art in periodicals or publishing. Art history also enriches the life of the practicing artist. More information is available from the art history office in the Herron Main Building, or by calling the Art History Program at (317) 920-2460.
